Attn: Rachel Reid, Environmental Planning Manager Coordinator

NOTICE OF EXEMPTION

Marin County
Environmental Coordination and Review

April 21, 2023

1. **Project Name:** 106 Reed Street Bank Erosion Repair
2. **Project Location:** The project is located adjacent to property address at 106 Reed Street in Mill Valley, CA, Unincorporated Marin County.
3. **Project Description:** The project will include removing the existing k-rails wrapped in heavy duty black plastic that were installed at the toe of slope during low flow in the channel of Reed Creek as temporary emergency protective measures against the imminent series of atmospheric rivers in January. During the most recent atmospheric river, the protection measures began to fail, and could cause creek damage if not removed. After removal, the permanent emergency repair will include restoring the existing creek banks and roadway to prevent future erosion and failure. The creek banks will be re-established by installing rock slope protection covered with native soil backfill and native vegetation plantings. The toe of bank will be restored to its original alignment prior to the erosion.
4. **Public Agency Approving Project:** Marin County Department of Public Works
5. **Project Sponsor:** Marin County Department of Public Works
6. **CEQA Exemption Status:** Statutory Exemption Section 15269. Emergency Projects (b) Emergency repairs to public or privately owned facilities necessary to maintain services essential to the public health, safety and welfare.
7. **Reasons for Exemption:** This project will include emergency repairs to permanently restore the existing creek banks and roadway from massive erosion and failure. This emergency permanent repair is essential to the safety and welfare of the roadway and the residents in the immediate neighborhood and further downstream.
